20 KEY POINTS

- We strongly recommend not to hardcode the guest nationality as this may lead to operational/financial issues. Please note TBO shall not be liable in such case.
- It is strongly recommended to pass IsDetailedResponse as 'False', as it will decrease the overall response size and time.
- Cancellation Policy and Norms received in the PreBook response will be considered as final for the booking itinerary.
- Kindly display the mandatory supplements i.e, AtProperty before/at the booking step as the guest needs to pay the supplement charges directly at the hotel.
